Peer Review Impact

Leonardo da Vinci
2009-1-F11-LEO05-01584
Transfer of Innovation

**Ensuring the impact of Peer Review
to improve the provision of VET in Europe
2009-2011**

FINNISH NATIONAL
BOARD OF EDUCATION

The aims of the Peer Review Impact project

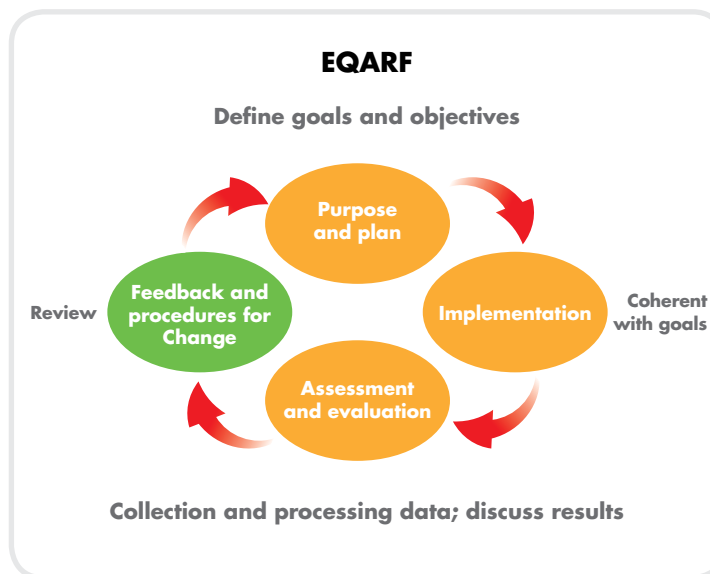

The project aims to contribute at the VET provider level to the implementation of the EQARF (European Quality Assurance Reference Framework) by focusing on the review phase and enhancing the understanding of the interplay between quality assurance systems, evaluations and improvement of VET.

In addition, the project intends to improve and further develop the European Peer Review methodology by investigating its impact. Finally, the project promotes the use of Peer Reviews at national and European level.

- How should Peer Reviews be conducted in order to have maximum impact?
- What effects can be detected?
- Does it prompt concrete improvement in VET institutions?
- Does Peer Review really come “full quality cycle”?

This transfer of Innovation project is based on the previous Leonardo da Vinci projects:

- Peer Review in Initial VET, (AT/04/C/F/TH-82000)
- Peer Review Extended I, (EAC/32/06/13 (LE-78CQAF)
- Peer Review Extended II, (LLP-LdV/TOI/2007/AT/0011)
- REVIMP, (NL/05/B/F/PP/157527)

The main results:

- **Peer Review Impact Guidelines**
The guidelines are addressed to VET providers to enhance the impact of Peer Review in terms of improvement of VET provision.
- **Peer Review Follow-up Guide**
The guide is addressed to VET providers to make self-assessment of the success of Peer Review.

Other results:

- Report on Impact of Peer Reviews
- Seminar for VET Providers on how to use the Peer Review Impact Guidelines
- Transfer strategy paper

Peer Review Impact Guidelines and Peer Review Follow-up Guide help VET providers

- to plan and conduct Peer Review as a tool in quality assurance
- to use the Peer Review as a methodology for mutual learning
- to increase the impact of Peer Reviews
- to improve the quality of VET by giving attention to feedback and change
